ACMENOVA TECHNOLOGIES

Employee Policies & Workplace Guidelines

Document ID: ANT-POL-001 **Version:** 2.1 **Effective Date:** 1 April 2026

Classification: Internal Use **Policy Owner:** People Operations

Purpose of This Document

This document defines general workplace policies for AcmeNova Technologies Pvt. Ltd. It is intended to provide employees with clear guidance on attendance, remote work, leave, information security, acceptable technology use, workplace conduct, expenses, and related procedures.

Important: This is a fictional policy document created as a dummy dataset for an AI-based question-answering and Retrieval-Augmented Generation (RAG) project. AcmeNova Technologies is fictional.

1. Working Hours and Attendance

Standard working hours are Monday through Friday, 9:30 AM to 6:30 PM, including a one-hour lunch break. Employees are expected to be available during core hours from 10:30 AM to 4:30 PM unless their manager has approved an alternative schedule.

Employees must record attendance through the company attendance portal. If an employee expects to arrive more than 30 minutes late, they should inform their reporting manager before the start of the working day.

Repeated unexplained absence or late arrival may be reviewed by the employee's manager and People Operations.

2. Remote and Hybrid Work

Eligible employees may work remotely for up to three days per week, subject to team requirements and manager approval. Employees working remotely must maintain a reliable internet connection and remain reachable through approved communication tools during core hours.

Remote employees must protect confidential information in the same manner as they would in an office. Public Wi-Fi should not be used for accessing restricted company systems unless an approved secure connection, such as the company VPN, is active.

Employees may be required to attend important meetings or team events in person when reasonable advance notice is provided.

3. Leave Policy

Full-time employees receive 18 paid leave days per calendar year. Leave requests should normally be submitted through the HR portal at least three working days in advance.

For emergencies or unexpected illness, the employee should notify their manager as soon as reasonably possible. Leave of more than five consecutive working days may require supporting documentation in accordance with applicable company procedures.

Unused annual leave may be carried forward for up to 12 days into the following calendar year. Any balance above this limit expires unless an exception is approved by People Operations.

4. Information Security

Employees must use strong passwords and must not share passwords, authentication codes, API keys, access tokens, or other credentials with colleagues or external parties.

Company laptops must use approved endpoint protection, automatic screen locking, and full-disk encryption where supported. Employees must install security updates within seven days of receiving an approved update notification.

Suspected phishing messages, malware, accidental data exposure, or lost company devices must be reported to the Security Operations Team within 30 minutes of discovery.

Confidential company documents must be stored only in approved company-managed storage systems. Sending confidential files to personal email accounts is prohibited.

5. Acceptable Use of Company Technology

Company devices, networks, software licenses, and accounts are provided primarily for business purposes. Limited personal use is permitted when it does not interfere with work, violate law or policy, consume excessive resources, or create a security risk.

Employees must not install unapproved software, disable security controls, attempt to bypass access restrictions, or use company systems to distribute malicious software or unauthorized copyrighted material.

6. Workplace Conduct

AcmeNova expects employees to communicate respectfully and professionally. Harassment, discrimination, threats, bullying, retaliation, and deliberate intimidation are not permitted.

Employees who experience or witness inappropriate conduct may report it to their manager, People Operations, or the confidential Ethics Hotline. Reports will be handled according to the company's investigation procedures.

Retaliation against a person who raises a concern in good faith or participates in an investigation is prohibited.

7. Business Travel and Expenses

Reasonable business travel expenses may be reimbursed when the travel has been approved in advance. Employees should submit expense claims within 15 calendar days after returning from a business trip.

Hotel reimbursement is limited to INR 6,000 per night for domestic travel unless a higher limit is approved in writing. Local transportation, meals, and other reasonable expenses are reimbursed according to the applicable expense schedule.

Original invoices or digital receipts are required for individual expenses of INR 1,000 or more. Expenses without adequate supporting documentation may be rejected.

8. Artificial Intelligence and External Tools

Employees may use company-approved AI tools for drafting, summarization, coding assistance, and other permitted business activities. Confidential, personal, regulated, or proprietary information must not be entered into public AI services unless the service and use case have been approved by Information Security.

AI-generated content must be reviewed by a human before it is used for customer-facing, legal, financial, security-sensitive, or employment-related decisions.

Employees remain responsible for the accuracy, confidentiality, and appropriate use of work produced with AI assistance.

9. Data Retention and Records

Business records must be retained according to the applicable records-retention schedule. Employees must not intentionally delete, alter, or conceal records that are subject to an active investigation, audit, legal hold, or regulatory requirement.

People Operations records containing employee personal information must be accessed only by authorized personnel with a legitimate business need.

10. Policy Exceptions

Exceptions to this policy require written approval from the relevant policy owner. Security-related exceptions may additionally require approval from the Security Operations Team. Verbal approval should be documented in an approved company system.

Quick Reference

Topic	Key Rule
